

Bettinardi's face-balanced, classic-looking **BB27 putter** (\$275) features a heel-toe design with a custom double-bend shaft, flat Honeycomb face that Bettinardi is known for, plus a metallic fog finish.

Tifosi's lightweight **Slip sunglasses** (\$69.95) are so lightweight that golfers will hardly notice them on. They feature interchangeable lenses, comfortable fit, and hydrophilic, no-slip rubber ear and nose pieces.

Aldila's **RIP Beta shaft** (\$299) for drivers generates a mid-launch. It has a slightly softer tip flex than the original, low-launching RIP Alpha. Its hoop strength is increased to provide more stability near the clubhead for maximum shot control.

Datrek's **Catalina cart bag** (\$139.95) for women weighs just 5.5 pounds and boasts a 10-inch, 14-way top with individual full-length dividers; seven pockets; external putter clip; Velcro glove holder; umbrella holder; and matching rain hood. A rubberized lift handle allows for easy transportation, while a cart strap sleeve prevents the bag from twisting.
